

# Terra Select

Trommel Screen T 55

# Terra Select T 55

- **Back to Basic:** The new Terra Select T 55 trommel screening machine has been kept to the basic essentials, but nevertheless still gives optimum performance without extra fittings.
- **One for All:** The Terra Select T 55 not only runs with its own trommel screen, it is also compatible with the trommel screens of other brands.
- **Big in Business:** Large trommel screens need to be kept full. The large size of the feed hopper of the T 55 trommel screening machine, at 5 m<sup>3</sup>, is a distinct advantage.
- **Perfect Match:** The Terra Select T 55 also features fast availability and the highest level of reliability at a price performance ratio that cannot be equalled.

## A new class for Terra Select

The trommel screen T 55 machine represents the start of a whole new era for Terra Select within its classes of trommel screens. The newly developed T 55 is positioned and fills the gap between the T 50 and T 60 models. Just like the other trommel screen models from the Terra Select brand, this standardised machine impresses with its innovative solutions and flexible handling. In addition, the drive system of the T 55 is both compatible with Terra Select trommel screens and rotary screening drums from other brand manufacturers.

### Dimensions

mm

Working position:  
length 15,300, width 6,740  
Transport position:  
length 12,000, width 2,550

### Engine

Diesel motor 55 kW

### Trommel

Trommel length 5,500,  
Trommel diameter 2,000,  
Effective screening area 30 m<sup>2</sup>  
Screening output up to 170 m<sup>3</sup>/h

### Fine grain belt, Oversize grain belt, Hopper

length 7,200, width 1,000,  
length 5,000, width 1,000,  
Hopper 5 m<sup>3</sup>
